

A Handbook of the World's Conifers

ALJOS FARJON

- April 2010
- ISBN 978 90 04 17718 5
- *Hardback* (2 Volumes, 1112 pp.)
- List price: € 196.00 / US\$ 290.00
- Discounted price*:
€ 156.80 / US\$ 232.00
- * ONLY if action code 48198 is mentioned

Conifers are known to everyone as a conspicuous kind of evergreen trees or shrubs that feature prominently in gardens and parks as well as in many managed forests in the cool to cold temperate regions of the Northern Hemisphere. Numerous books have been written about them and continue to appear, mostly with a bias towards these uses in Europe and North America.

This new handbook of the conifers is departing from this traditional approach in that it includes all the world's 615 species of conifers, of which some 200 occur in the tropics. It gives as much information about these and the Southern Hemisphere conifers as about the better known species, drawing on research into the taxonomy, biology, ecology, distribution and uses by the author over nearly 30 years. The result is a truly encyclopedic work, a true handbook of all the world's conifers, richly illustrated by the author with his line drawings and photographs taken from the natural habitats of the species.

ABOUT THE AUTHOR

ALJOS FARJON, FLS is a botanist who studied the taxonomy and ecology of conifers at the University of Utrecht, Oxford University and the Royal Botanic Gardens, Kew where he is currently (after retirement) Honorary Research Associate. He has published 10 books and 55 scientific papers on conifers since 1984.

READERSHIP

Botanical Institutes (libraries), Biological Faculties of Universities (libraries), Dendrologists, Foresters, Horticulturists, Ecologists, Conservationists (forests and trees), Members of Botanical and Dendrological Societies.

TABLE OF CONTENTS

Foreword; Preface

The conifers of the world, an introduction

The distribution and ecology of conifers

The economic importance of conifers

The conservation of conifer diversity

Synopsis of families and genera

Taxonomic treatment of families, with keys to families

Taxonomic treatment of genera and species (in alphabetical order), with keys to sections, subsections and species

Glossary; References; Lists of illustrations; Index to botanical names of conifers
